**Snow By:** Saturday at 9am - 11am

**Ice By:** Saturday at 2pm - 4pm

**Rain By:**

**1" Snowfall By:** Saturday at 7pm - 9pm

**Total Snowfall:** 4 - 6 inches ON PAVEMENTS

**Accumulation:**

**Duration of Storm:** 20 - 24 hours

**Post Storm Conditions:** Windy (blowing snow), afternoon melting, overnight re-freeze of untreated surfaces

Today (Sat.)	WEATHER	AMOUNT	TEMP.	WIND (mph)
<b>MID - 6 AM</b>	Cloudy		29-32 F	N at 3-8
<b>6 AM - NOON</b>	Cloudy, light snow showers developing by 9-11am	Dusting - 1/2 inch	32-35 F	N at 5-10
<b>NOON - 6 PM</b>	Light snow showers, mixing with light freezing rain between 2-5pm	Little, if any, snow Up to 1/8 inch ICE	31-33 F	N at 8-15 Gusting 20-25
<b>6 PM - MID</b>	Snow showers to light steady snow by 7-9pm	1 - 2 inches	28-31 F	NE at 13-18 Gusting 20-30

**Special Notes** Morning snow showers melting on above freezing pavements. Air/pavement temperatures falling and untreated surfaces developing ICY SPOTS between 2-6pm. A steady plowable snow developing this evening and accumulating overnight.

Tomorrow (Sun.)	WEATHER	AMOUNT	TEMP.	WIND (mph)
<b>MID - 6 AM</b>	Light snow becoming moderate from 1-5am	2 - 4 inches	26-29 F	N at 18-25 Gusting 30-40
<b>6 AM - NOON</b>	Moderate snow becoming light by 5-6am then ending by 7-9am	Up to 1 inch	26-32 F	NW at 17-23 Gusting 30-35
<b>NOON - 6 PM</b>	Clouds breaking to sunshine		32-34 F	NW at 15-20 Gusting 25-35
<b>6 PM - MID</b>	Mostly clear		25-32 F	NW at 10-15

**Special Notes** Moderate snow before dawn. Storm ending 7-9am. Strong wind blowing snow back on pavements through afternoon. Above freezing afternoon temperatures cause some snow melt with a re-freeze on untreated surfaces this evening so watch for icy spots.

Monday	WEATHER	HIGH TEMP.
<b>Overall Forecast</b>	AM sun to PM clouds, light snow developing 3-5pm, becoming heavy at night	31 F

**Next Update:** 8:00 AM, Unless Needed Earlier
